

What is the Coronavirus?

Written by Amanda Guinness
The Autism Educator

The Coronavirus is a virus that can make people feel unwell.

People who have the
Coronavirus may have:

Sore Throat/
Dry Cough

Fever

Shortness of
breath

Most people who have the
Coronavirus will stay home
to get better.

Some people who have the
Coronavirus will go to hospital to
get better.

I can help stop the spread of germs by washing my hands with soap and water.

I can take time when I wash my hands, making sure I wash between my fingers and all over my hands.

If I can't use soap I can use Hand Sanitizer.

There will be **NO** School

BUT

School will reopen again.

I will stay home as
school holidays have
come early.

I will still be able to
do some school work
while I am at home.

I know that I will be safe
and I don't have to feel
afraid.

I will be safe and happy at
home with my family.

I will not be able to go to my favourite places for now.

Once the Coronavirus is gone I will be able to go to my favourite places again.
