

FROM THE PRINCIPAL

As we come to the end of another successful school year, I would like to extend my warmest thanks to our families for their ongoing support and partnership. It has been a year filled with growth and resilience, and our students have continued to impress us with their progress, both academically and personally.

I would also like to acknowledge the dedication and professionalism of all of our educators. Their hard work, care and commitment have created a nurturing environment where every student is encouraged to learn, thrive and celebrate their strengths.

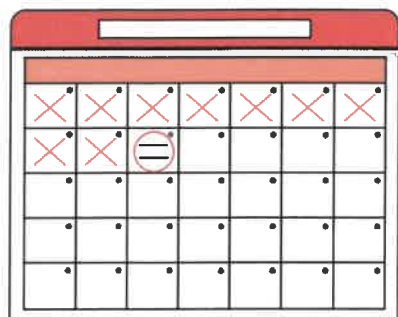

My sincere thanks also go to our School Board for their guidance, contributions and advocacy throughout the year. Their support plays an important role in shaping the direction of our school and ensuring we continue to provide the best possible learning opportunities for our students.

I would also like to extend my appreciation to our P&C for their commitment, energy and generosity throughout the year. Their fundraising efforts, support at school events and ongoing advocacy make a meaningful difference to our students and strengthen the sense of community we value so deeply.

Thank you for being part of our school community in 2025. I wish all families a safe, restful and joyful holiday break, and I look forward to welcoming everyone back for another exciting year of learning ahead.

WHAT'S COMING UP?

- **December 18th**
CHRISTMAS CONCERT &
LAST DAY FOR STUDENTS
- **February 2nd 2026** STUDENTS RETURN

ROOM 34

Room 34 has had an incredibly busy and exciting Term 4!

Students enjoyed their very first excursion, exploring the sights around Kwinana. The day was filled with adventure as they stopped at the Primary school Kindy area for a picnic lunch and some fun in the playground, followed by a visit to the library where they discovered new books and cozy reading spaces.

This term has been all about building confidence and independence as students ventured beyond the classroom to experience new environments. They learned how to navigate different spaces, practice social skills, and enjoyed shared experiences with friends. These outings have sparked lots of curiosity and conversations back at school, and it's clear everyone is looking forward to more opportunities like this next year.

Room 34 has truly embraced the spirit of exploration, and we can't wait to see what adventures await in 2026!

ROOM 31

Our Pre-Primary students in room 31, Have Been Busy!

This term, Room 31 have been working hard and having lots of fun as they explore new skills. They've been using the Bondi Block program to build strong foundations in early maths, practicing colour matching activities to develop visual and cognitive skills, and showing fantastic behaviour by earning PBS tokens along the way. We are so proud of their effort and enthusiasm, what a wonderful term of learning!

ROOM 29

Room 29 has had an exciting and productive term as they prepare to graduate from primary school. Alongside completing their final projects and assignments, students have been busy transitioning to their new schools. They've enjoyed participating in Year 6 excursions, practising for the graduation ceremony, and reflecting on their achievements throughout their primary years. It's been a wonderful journey, and they are looking forward to the next chapter with confidence and enthusiasm.

ROOM 28

Room 28 has had a fantastic term filled with fun and learning! Students have enjoyed taking part in special incursions that sparked their curiosity and creativity, and they've been cooking up a storm in the kitchen. These activities weren't just enjoyable, they also helped build important skills like following instructions, measuring ingredients, and working as a team. It's been wonderful to see everyone learning through hands on experiences while having so much fun!

ROOM 26

Room 26 has had a fun and action-packed term 4!

Our students attended several incursions with Constable Care and the West Australia Symphony Orchestra, learning about safety, community responsibility, and the joy of music.

They also enjoyed an exciting excursion to the adventure park, where they took pleasure in some water play and a special visit from Santa.

On top of that, Room 26 proudly performed an item at assembly along with the Junior cohort, building confidence and communication skills. It's been a wonderful Term 4 of learning and laughter!

ROOM 25

Room 25 has been working hard in all areas this term, with a special focus on maths. Everyone has been engaged with the Bond Block program, which has helped strengthen number sense and problem-solving skills. We've also been incorporating AAC devices into our learning, supporting students to communicate their needs and build confidence in expressing themselves. The class worked together to earn the PBS reward, showing great teamwork and positive behaviour. To celebrate all their efforts, we all enjoyed an ice-cream reward.

ROOM 24

Room 24 has been working very hard this term, especially in literacy. A highlight was a surprise visit from the Grinch, who mischievously trashed their classroom! This tied perfectly into their reading focus on *The Grinch Who Stole Christmas*, sparking lots of discussion and creative writing.

Students have also been busy building Santa's sleigh, using descriptive language and sequencing skills to plan and write about the process.

To top it off, they enjoyed making fairy bread, which gave them a chance to follow instructions and practise procedural writing. It's been a fun and festive way to strengthen literacy skills!

ROOM 23

As we approach the end of the school year, Room 23 has been reflecting on all the learning and growth we've achieved together. Our students have worked incredibly hard, building skills in literacy, numeracy, and problem-solving, while also learning the importance of teamwork and perseverance. These efforts have truly paid off, every challenge has been met with determination, and every success has been celebrated! We are proud of the progress each student has made and look forward to finishing the year on a strong and positive note.

MUSIC ART & SCIENCE

In Science, our students have been exploring fascinating concepts such as textures, and the properties of solids and liquids. Through hands on experiments and observations, they've been developing their understanding of how materials behave and change.

In Music, we were fortunate to have WASO visit our school for a live performance. This was an incredible opportunity for students to experience different styles of music and learn about instruments and orchestration. It was both inspiring and educational, sparking a deeper appreciation for the arts.
